THEODORE B. CLAPP, M. D., Adjunct Professor of Anatomy.

The Dissecting Rooms will be opened on the 15th of October, or earlier, if students are in attendance and desire it. Clinical instruction will be given daily in the wards of the Charity Hospital, and three times a week at the College Dispensary.
The College is located within thirty steps of the Charity Hospital, an advantage not possessed by any other College in this country.

The Faculty of this Institution are amongst the duly elected Visiting Physicians and Surgeons of the Charity Hospital, and, according to a late act of the State Legislature, "shall at all times have free access to the Hospital for the purpose of attending to their Pupils practically in the treatment of the subjects they teach."

The great aim of this Institution is, not only to thoroughly indoctrinate the Students in Medicine in the fundamental principles of Medicine by abstract Lectures, but by leading him daily at the bedside of the sick man, to send him forth at once qualified to recognize and to treat Disease. For this great purpose, the Charity Hospital, situated at our very door, affords opportunities unequaled in this country.

The Faculty can confidently assert that dissecting material is more abundant in New Orleans than elsewhere, and that Practical Anatomy will be thoroughly taught in this Institution. Besides spacious, well-ventilated and well-lighted Dissecting Rooms for the use of the Students, a large and well-arranged Private Dissecting Room is fitted up for the especial use of practitioners who matriculate in this Institution.

The Professor will take pleasure in aiding the Students to procure cheap and comfortable board and lodging.
