HINARI Train the Trainer Workshop:
Help developing-country partners gain access to and produce evidence-based information!

Tulane University School of Public Health and Tropical Medicine
Friday, March 4, 2016 | 8:00 am—5:00 pm | 1440 Canal Street | Room 1201

Join the army of HINARI users with 21st century information skills to make a positive impact on evidence-based public health research, policy and clinical decision making.

HINARI instruction creates awareness and knowledge prior to departure to or return from low or middle-income countries. It will enable you to develop and practice skills to:

- Find e-journals
- Connect to HINARI/PubMed and other evidence-based resources
- Use PubMed Filters, MeSH vocabulary, and Clinical Queries
- Use HINARI/E-book resources
- Find grey literature & open access journals
- Develop authorship skills: read and write a scientific paper
- Use citation management software

Lenny Rhine, Ph.D., Coordinator
E-Library Training Initiative
Librarians Without Borders®
Medical Library Association

Lunch and refreshments are provided

Registration is Free!
Please register before Thursday, March 3
register here:
http://libguides.tulane.edu/openaccess/HINARI

Participants should have basic search skills and knowledge of PubMed. It is important to bring a laptop to participate in exercises during the workshop.
