A Guide to
NO OR LOW PAY COMMUNITY HEALTHCARE IN ORLEANS PARISH

The Mayor’s Office of Cultural Economy
CITY OF NEW ORLEANS
Mitchell J. Landrieu, Mayor
A message from Mayor Mitch Landrieu:

In keeping with my commitment to improve the quality of life for the citizens of New Orleans, I am pleased to present this collection of low and no pay healthcare resources available throughout Orleans Parish. Working with a network of partners, my administration has secured state and federal funding for New Orleans’ primary healthcare clinics. This shared effort has led to better, neighborhood-based care for low income, uninsured and other vulnerable resident populations in our city.

The Mayor’s Office of Cultural Economy works with cultural businesses and workers, who fuel our city’s tourism industry and our creative economy. This Guide provides details on low and no pay healthcare resources such as programs waiving or significantly reducing out-of-pocket healthcare costs, community healthcare clinics located around Orleans Parish, and mobile healthcare units supplementing services available through traditional healthcare centers. Through this initiative, the Office of Cultural Economy hopes to better serve cultural workers such as performers, hospitality personnel, artisans, and more, who may not have access to employer health insurance.

As a city, we can improve the health of our population, and our aim is to ensure delivery of affordable, quality healthcare services for all residents. I invite you to use this valuable information to help enhance your health knowledge, make informed health choices, and have the resources to take the necessary steps to improve wellness outcomes for yourself, your family and loved ones.

Yours,

Mitchell J. Landrieu, Mayor
City of New Orleans

COMMUNITY HEALTHCARE CLINICS

Today in the New Orleans area, there are more quality community-based medical clinics than ever before, including more than 90 sites located across Orleans, Jefferson, Plaquemines and St. Bernard parishes—all run by names you know and trust. You and your whole family, from your parents to your kids, can now make an appointment to see their own doctor and spend less time in the emergency room.
