## Course Title
GCHB 7130: Research Methods in Social and Behavioral Sciences

## Department
Global Community Health and Behavioral Sciences

## University
Tulane University School of Public Health and Tropical Medicine, New Orleans, Louisiana

## Lesson Title
Finding and retrieving journal literature

## Materials
Detail available in the QR code

### Course Objectives

<table>
<thead>
<tr>
<th>ACRL Standard 2, Performance Indicator 5</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Creates a system for organizing the information</td>
</tr>
</tbody>
</table>

### MPH Competencies

<table>
<thead>
<tr>
<th>ASPH MPH Competency: Communication and Informatics</th>
</tr>
</thead>
<tbody>
<tr>
<td>• The ability to collect, manage and organize data to produce information and meaning</td>
</tr>
<tr>
<td>• Gather, process, and present information to different audiences</td>
</tr>
</tbody>
</table>

## Introduction

### Agenda

1. Create account in EBSCO and create a Folder: GCHB 7130
2. Create RefWorks account and create a GCHB 7130 folder
3. Import bibliographic information (BI) from CINAHL/EBSCOHost to RefWorks
4. Format a Refworks bibliography in Word

### Teaching Strategy 1: Demonstration

#### RefWorks

- Create folder: GCHB 7130
- Import References
- Create bibliography

### Teaching Strategy 2: Hands on search practice:

#### Export references from CINAHL/EBSCOHost to RefWorks

5. Locate journal literature in which a scale/index/questionnaire was used to investigate a health behavior using a health behavior theory
   a. Sample search: ‘health belief model’ AND psychometrics AND behavior without selecting a field
   6. Direct export to RefWorks folder GCHB 7130

### Teaching Strategy 3: Hands on search practice

#### Create a citation using RefWorks

7. In RefWorks: View Last Imported Folder and place BI in GCHB 7130 folder
   --> In GCHB 7130 folder, Select the citation and add it to ‘My List’
   --> Select Create Bibliography
      --> Output Style: APA
8. In the Format a Bibliography from a List of References bar,
   --> File Type (i.e. Word for Windows)
   --> References to Include --> My List
9. Create Bibliography
10. Open the Bibliography in Word
11. Copy and paste citation into Scale/Behavior/Theory Table worksheet
12. As you import citations, complete the worksheet to indicate the theory name, scale/index/questionnaire used and behavior

### Closing

13. With each search, you are developing skills to collect, manage and organize data to produce information and meaning
14. For more information, use this guide: GCHB 7130: Research Methods in Social and Behavioral Sciences:
   a. http://libguides.tulane.edu/gchb7130_research_methods
15. Provide name and contact information
16. Ask them to complete assessment of instruction provided

Time: 05
Review major theoretical constructs used in health behavior research: [http://dccps.cancer.gov/brp/constructs/](http://dccps.cancer.gov/brp/constructs/)
